Subject: PBS 201 save the date

Hello all,

This is a reminder that we will be offering our first sessions of PBS 201 starting soon. PBS 201 is made up of three half day trainings which focus on how to embed PBS into your agency from a leadership standpoint. The classes are designed for new agencies, as part of the orientation process. However, we do have some openings available for existing teams to send 1 or 2 individual leaders to attend if they chose. If you are an agency that is still struggling with embedding PBS into your leadership; if you want to send a future PBS Board member as part of your succession planning; or if you or a leader in your agency would like a refresher please contact me directly with questions or to RSVP. We would like to keep the classes to 25 participants or less. The content is meant for all sessions to be taken as a whole. Material is at a professional level and there will be some homework and group discussion involved. Participants may, but do not have to have attended Vision to Action/Leadership academy in order to attend.
