

Self-Assessment of Contextual Fit

The purpose of this self-assessment is to assess the extent to which the elements of a behavior support plan fit the contextual features of your support setting(s). The scale asks you to rate (a) your knowledge of the elements of the plan, (b) your perception of the extent to which the elements of the behavior support plan are consistent with your personal values, and skills, and (c) your agency, program, or school's ability to support implementation of the plan. This information is used to assist in developing a behavior support plan that work well for the people implementing it and fits well with the features of the settings where it is (or will be) implemented.
